

Motorhome Protection

What is Motorhome Protection?

It is a comprehensive service contract program that offers coverage for new and pre-owned motorhomes. The program includes several options designed to meet the needs of every customer.

What type of coverage does the Motorhome Protection program provide?

The program provides the following coverage options:

- Motorhome: Chassis, engine, and coach components.
- Coach: Covers the coach components only.
- Diesel Wrap: Covers the chassis and coach components not covered by the manufacturer's powertrain warranty.

There are two excellent choices in coverage:

- Emerald Protection: Covers all of the major components listed in the details of the Motorhome Service Agreement.
- Sapphire Protection: Provides exclusionary coverage for every component except for the items specifically excluded from coverage as outlined in the Motorhome Service Agreement.

Both programs include trip interruption, substitute transportation, roadside assistance, service calls and food spoilage reimbursement.

What units are eligible?

- New units: Any unit with one month and 1,000 miles remaining on the original manufacturer's warranty. Coverage follows the unit's in service date.
- Pre-owned units: Any unit up to 12 model years old with less than 80,000 miles at time of sale. Coverage is add-on time and miles.

Optional Coverage

Emerald Plan:

- Luxury Component Group
- Leveling System
- Slide-Out Rooms
- Premier Electronics Package

All Plans:

- Seals & Gaskets (pre-owned units)
- Consequential Loss Coverage
- Brown Out Coverage
- Commercial Use

Is the program available to eRate, eContract and eRemit?

The program is available for eRating, eContracting and eRemitting through our portal.
