

Travel Trailer Protection

What is Travel Trailer Protection?

It is a comprehensive service contract program that offers coverage for new and pre-owned towable trailers including fifth wheels, travel trailers, toy haulers, slide-in campers, and pop-up campers. The program includes several options designed to meet the needs of every customer.

What type of coverage does the Travel Trailer Protection program provide?

The program provides two coverage options, Emerald protection, which is stated component coverage and Sapphire protection, which is comprehensive exclusionary coverage.

There are two excellent choices in coverage:

- Emerald Protection: Covers all of the major components listed in the details of the Travel Trailer Service Agreement.
- Sapphire Protection: Provides exclusionary coverage for every component, except for the items specifically excluded from coverage as outlined in the Travel Trailer Service Agreement.

Both programs include roadside assistance, service calls, and food spoilage reimbursement.

What units are eligible?

- New units: Any unit with one month remaining on the original manufacturer's warranty. Coverage follows the unit's in service date.
- Pre-owned units: Any unit up to 12 model years old at time of sale. Coverage is add-on time.

Optional Coverage

Emerald Plan:

- Luxury Component Group
- Leveling System
- Slide-Out Rooms
- Premier Electronics Package

All Plans:

- Seals & Gaskets (pre-owned units)
- Consequential Loss Coverage
- Brown Out Coverage
- Commercial Use

Is the program available to eRate, eContract and eRemit?

The program is available for eRating, eContracting and eRemitting through our portal.
